Dear Mr. Pretzel:

C
O
P
Y

I would like to express my gratitude to you and Mr. Gene Stamme for your prompt and thorough response to my September 4, 1981 letter. It was confirmed to me that your facility has substantially fulfilled the closure plan, personnel training, and inspection schedule and log requirements, and that the backlog is no longer a point of concern. The only items I could see as still needing attention include the need for closure cost estimates and the need to reduce the present number of hazardous waste drums in storage to a figure at or below the process design capacity indicated on the Part A application. It is my understanding that these will be taken care of in the near future. Again, Thanks for your cooperation.

Sincerely,

Dale T. Stuckey
